

PRATT HOME BUILDERS HOME PLAN

CEDAR BLUFF

3,661 SQ. FT.
5 Bedrooms/4 Baths
master down

Curb appeal to spare! And the style doesn't end with the exterior.

An open layout leads to the two-story family room with floor to ceiling fireplace. Manage the kitchen prep and still be in the conversation with friends. Two rows of windows – opposite the staircase – flood the living area with abundant lighting. Along with the master suite, on the first level, there is room for an in-law suite, guest room or at-home office with a conveniently located full bath close by.

Two of the three upstairs bedrooms – one with a walk-in closet – share a full bath with separate sinks and vanities. No more “she’s touching my things!” Also upstairs is a bonus that is large enough to be a media room and hobby space. It also has a closet for even more storage area.

A welcoming covered porch has ample room for your Cracker Barrel rocking chairs or a glider swing. And there is an option for a carriage style garage.
