A cozy retreat for a small family, empty nesters or professional who works from home. A low-maintenance oasis with a large Foyer that leads to an Office/Second Bedroom, Full Guest Bath, and garage access!

The popular open concept design features the Kitchen, Dining Room and Great Room with a fireplace – perfect for mingling with guests while finalizing dinner or entertaining yourself during Kitchen cleanup by catching up on Hulu.

The Master Suite includes a Master Bath with his and her sinks, linen closet and large Walk-in Closet so you never have to sacrifice comfort.

The laundry offers ample space with access off the kitchen area. A Patio off the Great Room is a perfect place to relax before or after a busy day. The garage has an extra area for storage space or a “drop zone” for muddy shoes.
